Hi Krista,

GTAC has completed all the drill sites they received approval for a few months ago. The drill rig has been gone for a few weeks. We keep being asked if more exploratory drilling will take place. The answer we give is that the company would have to come back for a new approval if they propose any more drilling. That said and to the best of my knowledge, the company hasn't indicated if they are planning to do more exploration work.

Hi Brad,

Can you tell me the status of exploratory activities? Has GTAC completed those activities or are they ongoing?

Hi Brad,

Do you have a lat/long for a point on the road and lat/longs for the exploration sites? I am trying to locate these locations.

Thanks,

Krista

Hi Krista,

I have the following folks invited to the call on the 6th.

Russ Rasmussen-Deputy Water Division Administrator
Jim Bertolacini-Statewide Stormwater Program Coordinator
Jane Landretti- Bureau of Legal Services, Stormwater Program Attorney
Larry Lynch-Technical Lead GTAC Mine Team
Paul Luebke-Wastewater Lead, GTAC Team
Brad Johnson-Stormwater Lead, GTAC Team

As word of this gets out, I may have to add one or two more folks. I will let you know.

Are you able to get me a list of invitees?

thanks

Hi Brad (Brad or Bradley?)

I'm afraid those times are not great. How about August 6, 2-330?

Hi Krista,

Thanks for the discussion today on the Gogebic Taconite (GTAC) project in Northern Wisconsin. It was very helpful to me to talk through this with you.

I looked at calendars and it appears that the follow dates and time ranges should work for a conference call:

Wednesday July 31st 8:00-10:00
Monday August 5, 10:00-1:00
Monday August 12, anytime in the afternoon

See if any of these would work for your folks and if not, I will carve out some other times. Otherwise please book a date and time and we will lock it in on our end.

I'll send something down to you on the overall mine site shortly.

Thanks again,
